## **EXAMINER'S COMMENTS**

### ***Oath/Declaration***

1. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth; the claims as amended include information not in the original claims when the previous oath was signed. For example, the new claims where the inserting and reading are performed in parallel, and where the threads are allocated first to the agents having messages of low priorities. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Applicant amended independent claims 6 and 21 now specify where the inserting and reading are performed in parallel, and where the threads are allocated first to the agents having messages of low priorities. Applicant's arguments relating to the failure of the prior art to teach or suggest these features, presented on pages 19 – 20 of Applicant's response filed 6/27/2008 are persuasive, particularly that the prior art fails to

Art Unit: 2142

teach or suggest threads being allocated first to agents having messages of low priorities (see page 20, paragraph 2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
